AlpiMount-Basic LV101

All-Scenario Solar Mounting System

20° Tilt Boosts Solar Capture
Hassle-Free Home Solar Installation

Fast

Snap to mount
4 Bolts only
neat and steady

Versatile

Fit Roof, Garden, Terrace
all set easily

Economical

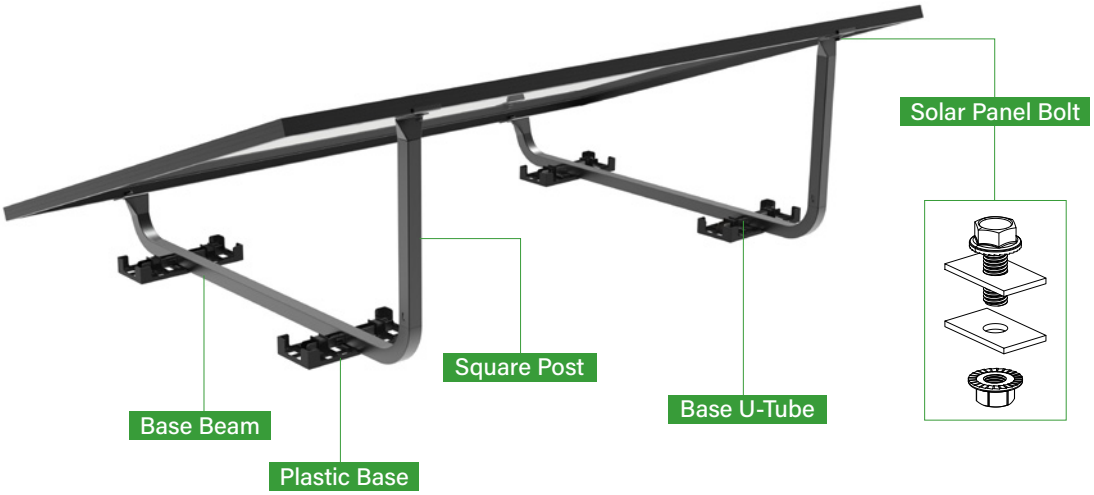

Packed Under 1.2m
save freight perfectly

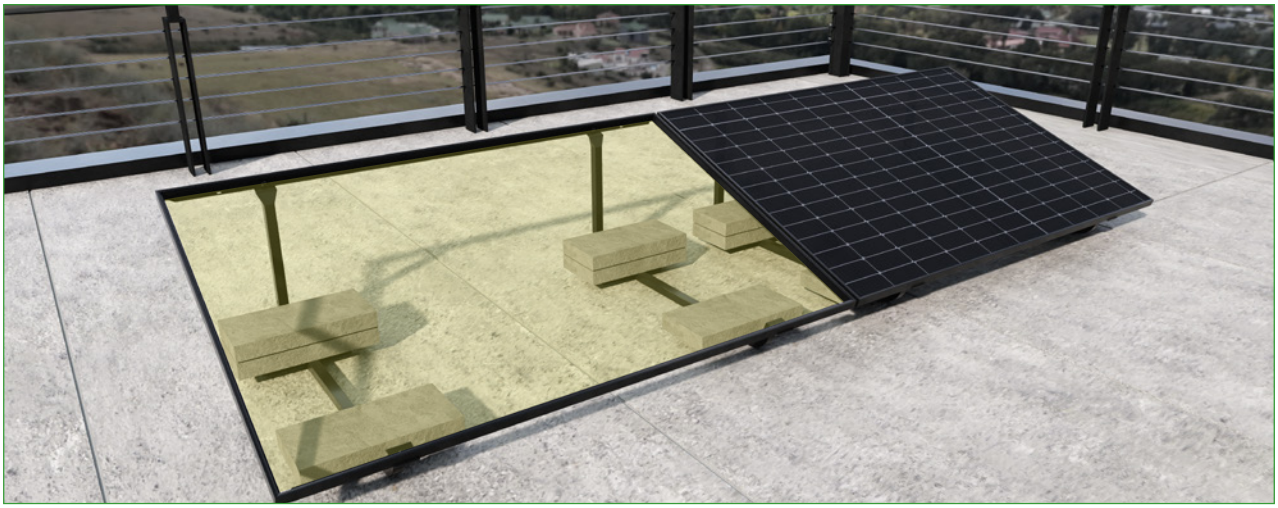

Product Introduction

AlpiMount-Basic LV101 is an all-scenario solar mounting system designed for residential PV installations, suitable for flat roofs, patios, lawns, terraces, and similar environments. Its simple, plug-and-play design significantly reduces installation time. The ballasted mounting requires no roof penetration, eliminating any risk of roof damage. The smooth surface of the plastic base ensures that even when installed on roofs with waterproof membranes, the waterproof layer remains intact without scratches or damage.

What You Get From AlpiMount-Basic LV101?

Easy Installation

Plug-in installation with only **4 bolts**. Ultra-simple to mount, easy DIY for the families.

Wide Application Range

Diverse installation scenarios let you enjoy the convenience of solar energy anywhere.

20° Tilt Angle

Designed with a 20° tilt angle to capture more solar energy and achieve higher power output.

Cost Saving

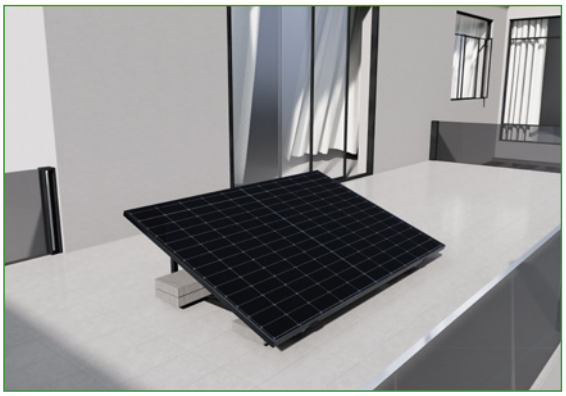

Simple components and installation method help you save costs on product price, transportation and installation.

Garden

Flat Roof

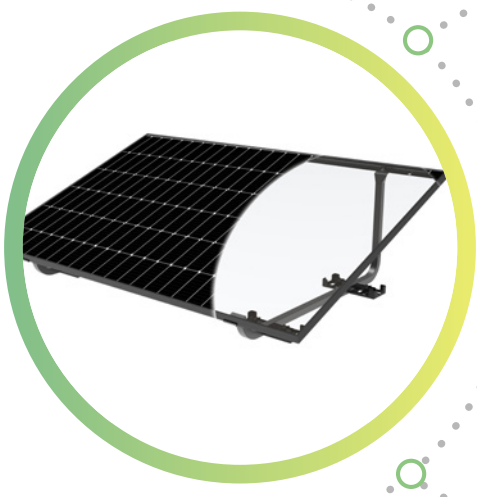

Terrace

Packing Parameters

Item	Specification-20GP	Specification-40HQ
Pallet type	Steel Pallet	Steel Pallet
Pallet size		1130*1170*1280mm
Carton size	1125*140*82mm	
Weight per carton		4.8kg
Cartons per Layer		8
Layers per pallet		14
Cartons per pallet		112
